

RESOURCE CONNECTION SESSIONS

Focused on Serving Wisconsin Children IN Wisconsin

*From 2014-2020, RCC capacity in our state declined 32%. Placement data shows that the number of children placed out-of-state grew from 44 in 2016 to 119 in 2020. By the end of 2020, a total of 250 children from 46 different counties had experienced an out-of-state placement. The pandemic has exacerbated the placement crisis and it is now having a destabilizing effect on our workforce. **Now is the time to try something new.***

*In response, WAFCA will pilot **Resource Connection Sessions**.*

The vision is to create a process...

FOR children with complex needs at-risk of out-of-state placement

THAT provides a universal format for sharing child information

AND engages system consultant expertise & representation from the continuum of care in WI

TO locate in-state treatment and services.
